## Kofu Factory

**Location: Kofu City ,Yamanashi Prefecture**

**Kofu factory started its operation in 1974 as a main factory of Yokogawa Electric Corporation. It initiated New Yokogawa Production System (NYPS) with the aim of streamlining production by the concept of JIT in 1981.**

**Features of Kofu factory's operation are Kanban Pull-System, One Piece Flow Line, Kaizen Activity etc.**

**Main products include field instruments, recorder electronic instruments etc. They are mostly made-to-order. Demand attributes are small lot, small volume, and a wide variety of specialized orders.**

**Another feature of the factory is its strong orientation toward Environment and CSR activities. ISO9001 and ISO14001 are already acquired. The factory was awarded Excellent Energy Control-Designated Factory by the Ministry of Economy, Trade & Industry (METI) in 2003.**
