

## Factory Tours

Planned factory tours on August 8, 2008 (One choice out of following tours)

Each plant provides some conditions to be met by visitors. Please check below about the conditions when you choose a tour. Those visitors who don't meet the conditions will not be allowed to join the tour.

Also each plant sets the upper limit for the number of visitors. The figure in parenthesis after the name of each company below is the upper limit. We will stop accepting visitors for each of the plants when the number of participants of the plant reaches the limit.
